# Certified Management Accountant (CMA)

**Certified Management Accountant (CMA) certification is a globally recognized professional certification in management accounting.**

## Why Taking Certification Program?

Obtaining a CMA certification can offer several benefits for accountants looking to advance their careers, including:

- 1. Demonstrating Competence:** CMA accreditation shows managerial accounting expertise.
- 2. Improved Career Prospects:** Better Job Prospects: CMA accreditation opens paths to higher-level accounting, finance, and similar roles.
- 3. Enhanced Salary Potential:** CMAs make more than non-certified CPAs. CMA accreditation shows management accounting expertise that companies value.
- 4. Access to a Professional Network:** CMA accreditation gives you entry to a global network of qualified professionals for job growth, knowledge-sharing, and professional advancement.
- 5. Continual Professional Development:** CMAs must continue their education and training to stay current in management accounting.

In summary, obtaining a CMA certification can be a valuable investment for accountants seeking to advance their careers, enhance their salary potential, and stay competitive in an increasingly complex and dynamic business environment.

## What is required to earn CMA certification?

- Active membership in IMA (Institute of Management Accountants).
- A bachelor's degree from an accredited college/university or a related professional certification.
- Complete two continuous years of professional experience in management accounting or financial management. This requirement may be completed prior to or within seven years of passing the examination.
- Passing Parts 1 and 2 of the CMA exam.
