

CHARTERED FINANCIAL ANALYST (CFA®) Review Program

BACKGROUND

The Chartered Financial Analyst (CFA®) is a prestigious professional designation for finance and investment analysts. The examination is conducted once a year every June for Level 2 & 3 exams and twice a year in June and December for Level 1 exams and is facilitated simultaneously worldwide by the CFA INSTITUTE.

The rapid growth in the investment and financial worlds has spurred the need to create a standard which investors and employers to rely when dealing with investment and financial professionals. The need for this standard has stimulated the growth in the number of CFA participants since the CFA program is known for its high standards for course content, integrity, and professionalism.
